

...DO YOU REPEATEDLY PRESS THE BUTTON AND NOTHING HAPPENS?

...HAVE YOU GOT WORN AND DAMAGED PANELS?

...DO YOU REQUIRE A CHANGE?

SOLUTION « FLORENCE » IS JUST FOR YOU...

Cabin panels

Floor call buttons

The company MYLIFT s.r.o. is pleased to present a new panels «FLORENCE», which are both modern and elegant due to perfect details, and which provides fast and efficient restyling of your old panels.

Materials on the base of steel makes the new panels highly durable and simplifies their maintenance.

Variability of the system enables to meet all the requirements, for example, to add a display to the elevator which previously had not it, and more – for reasonable price.

Except the control buttons and alarm the cabin panel can include:

- Button for open and close the door
- LCD or TFT display
- Gong
- Buzzer
- Emergency lightning
- Communication device
- Chips reader

Floor call buttons can additionally include:

- LCD or TFT display
- Gong
- Chips reader

The speed of assembly ensures almost continuous operation, and so minimize the discomfort of the user in case of elevator's shutdown.

For more information contact our staff, we will be glad to prepare the customized solution suitable to your needs.
